About NEHSA

NEHSA was founded in 1972 as a non-profit organization run by and for physically disabled persons who wanted to enjoy active and independent lives through participation in sports. In 1994, the winter program was expanded to include ski instruction for developmentally disabled persons. Today, our program’s goals are to encourage positive attitudes, social opportunities and personal growth through the challenges that participation in outdoor sports and recreation offers.

NEHSA offers year ‘round activities such as adaptive kayaking, paddle boarding and snow sports. The snow sports lessons are offered at our home base, Mount Sunapee Resort, where more than 7500 hours of ski and snowboard lessons were taught by our highly trained volunteer instructors during this past winter season. Some of the disabilities that NEHSA serves include individuals living with amputation, autism, Down Syndrome, traumatic brain injury, muscular dystrophy, multiple sclerosis, cerebral palsy, spina bifida, paraplegia, quadriplegia, post stroke, as well as visual and hearing impairments, to name a few.

Over 300 NEHSA volunteer Instructors proudly serves the worlds most deserving population, with state of the art equipment and cutting edge training.
